PROJECTS

Food Delivery Web Application

Designed and developed a dynamic food delivery web application using the MERN (MongoDB, Express.js, React.js, Node.js) stack. Utilized HTML, CSS, and Bootstrap for front-end design and responsiveness. Implemented back-end functionalities with Node.js and Express.js, integrating MongoDB for data storage. Key features include user authentication. Leveraged React.js for a responsive and seamless user interface, ensuring optimal performance across devices.

🐙 Jagannath-Pradhan/GoFood

House Construction Website

Developed a small house construction website using HTML, CSS, and Bootstrap. Designed a responsive and visually appealing layout to showcase construction services, project galleries, and contact information. Implemented Bootstrap components for enhanced UI/UX and ensured cross-browser compatibility.
